

LITHIONICS BATTERY®

LITHIUM-ION IRON PHOSPHATE BATTERY SYSTEMS

The Original Inventor of Vehicle Mobile Power Systems Since 2010

World's First and/or World's Only Features

- Bluetooth® APP and IonGage® Tracks State of Charge, State of Health, Battery Life and Diagnostics
- The industry's Best Warranty: Tracked Daily and User Friendly
- In-the-field BMS Firmware Upgrades- for-Life via the Bluetooth® APP
- RV-C CANbus telemetry for Silverleaf / Spyder / Firefly / Wakespeed integration
- Plug & Play Modular Expansion: the External BMS Controls Up to 6 Modules, Expandable by the Customer in Under 5 Minutes
- The NeverDie® Power Reserve: On-Battery + Remote Control Push-Button Access to 10% Extra Energy
- Back-Up Engine-Cranking Capable: Highest Surge Ratings of Any Battery
- UL Listed to 1642, 1973, 991, 508, 1998, 157 The Highest Level of Safety Certifications
- Multi-Million-Dollar Product Liability Insurance Policy (Liberty Mutual) for the RV/Work Truck/Yacht Owner!
- Internal Automatic Heater Kit, the First to be UL Listed for Safety, for All-Weather Operation and Storage
- Powder-Coated Aircraft Grade Aluminum Enclosure, UL Crush/Crash Tested to 22,000 lbs and 150G Impact: Ultra Light Weight Vs Heavy Steel Enclosures or Non-Fireproof Low-Cost Plastics.
- UL Certified Safe to Install Inside the RV, Yacht, Cabins, and All Living Spaces: NO Combustible or Toxic Vapors
- UL Listed at All Voltages: 12, 24 and 48 Volts (Ready for the Future)
- Battery sizes from 130 to 1,260 Amp Hours
- World's Highest Density and Smallest Size per Square / Cubic Inch
- True USA Factory Providing Design Engineering, Firmware Coding, Assembly and Certified Testing
